

The Guild master has introduced a discussion point for each Guild meeting. The topic below will be discussed at the Guild General Committee Meeting in March.

Each branch has two minutes to put forward the views of its members.

We will take the opportunity to discuss this during the Bicester Branch AGM, on 20th Feb.

Discussion topic, to be raised at next General meeting (March):

Good striking and bell handling.

As a branch, what do you do to identify and tackle handling issues among your members?
What branch activities if any do you have to improve striking?
